AUDITING DEPARTMENT

CITY OF BOSTON AND COUNTY OF SUFFOLK

To the Honorable Kevin H. White, Mayor of Boston, and Members of the City Council.

GENTLEMEN:

I am pleased to present the financial statements of the City of Boston and the County of Suffolk for the year ended June 30, 1975.

Operations for the year ended June 30, 1975, were on a break-even basis. Receipts exceeded budget by approximately \$18 million primarily as a result of reimbursements of school construction and hospital costs by the Commonwealth. On the other hand, expenditures also exceeded budget by \$18 million largely as a result of court-ordered desegregation in the schools. Police department expenditures were over budget by \$9 million, mostly accounted for by overtime in connection with desegregation, with most of the balance accounted for in the School Department.

Surplus revenue in the general revenue fund as of June 30, 1975, amounted to \$23,780,349, a decrease of \$6,704,129 from the amount reported on June 30, 1974. This decrease was accounted for principally by the transfer of taxes to the tax title account which takes them out of revenue. The city is moving more aggressively to take title to delinquent properties which, while having a temporary adverse effect on surplus, should result in improved collections in the future.

The city's cash balance at June 30 was approximately \$58 million. General fund cash amounted to \$49 million and capital improvement fund (non-revenue) cash amounted to \$9 million. Capital improvement cash was down from the previous year because of the city's decision to delay the sale of bonds in view of conditions in the bond market and accompanying high rates of interest.

During the fiscal year the city issued serial bonds amounting to \$39,980,000 and redeemed \$29,506,000 for a net increase in funded debt of \$10,474,000. The city's gross funded debt stands at \$392,811,500. Of this amount, \$16,233,500 represents rapid transit debt which is fully covered by sinking funds, leaving net debt of \$376,578,000. This amounts to approximately \$590 per capita. In addition to the long-term debt, there were \$20 million of bond anticipation notes outstanding as of the end of the fiscal year.

The city maintains its books on a modified accrual basis of accounting under which real and personal property taxes, less a reserve for abatements, are credited to revenue when levied; other revenue items are not credited until received. Expenditures, refunds, and similar items are charged to operations as incurred and set up in warrants payable or other applicable accounts.

The accounting procedures, as established by the Commonwealth of Massachusetts for cities and towns, differ in certain respects from generally accepted municipal accounting principles as established by the Municipal Finance Officers Association and the American Institute of Certified Public Accountants. An attempt has been made in the accompanying statements to follow the format recommended by M.F.O.A. As I stated last year, it is expected that over the years the city will gradually bring its books into line with generally accepted accounting principles to the extent permitted by statutes, ordinances, and other legal requirements.

Respectfully submitted,

WALTER W. MERRILL,
City Auditor and Auditor of the County of Suffolk.

SUMMARY OF AUDITING DEPARTMENT ACTIVITIES

During the fiscal year ended June 30, 1975, the Auditing Department processed the following transactions:

	Number	Approximate Value \$ Million
Employees paid	52,463	360
Vendor payments processed	99,307	178
Special contract payments processed	6,210	338
Contracts processed	1,805	184
Bonds redeemed and audited	9,000	30
Coupons audited	180,000	20

Organizational changes included the setting up of a Payment Section within the department in order to more effectively process invoices for payment. A revised and simplified procedure was introduced for processing special contract payments. Improved procedures for distributing postage charges were also implemented. Design work was begun for an improved standard invoice form and a standard service contract. It is expected that they will be introduced in fiscal 1976.

The Post-Audit Section was reactivated, and audits were carried out in nine departments. In addition, over twenty of the largest petty cash funds were audited and all such funds were circularized as of the end of the year.

Audits of the city's hospitals and of the city's funded debt were carried out by a firm of certified public accountants. Audits of federal grants were carried out as required.

The time required for issuance of monthly financial reports was significantly reduced by making greater use of the city's computer. Further improvements in both the timeliness and content of these reports is expected.

NOTE 1. Includes cash equivalents of \$21,000,000.

NOTE 2. The Funding Loan Law, chapter 717, section 5, Acts of 1957, provides, that for the purpose of providing for abatements granted on account of taxes assessed, the assessors shall add to the amount to be assessed in such year an overlay of not less than 5 percent and not more than 6 percent thereof. Should the amount be inadequate in any year, the assessors shall add to the amount to be assessed in the following year such additional amount as may be required. An original overlay reserve of 6 percent was provided for the year ended June 30, 1975.

NOTE 3. Open purchase and service orders and estimated costs for utilities and similar services incurred but not yet billed are charged to expenditures and set up as reserves for encumbrances. Open contracts for services chargeable to the 1974-75 budget period are carried forward as appropriation balances.
